# Automated Electrical Panel Design Platform API 1.0.0 OAS 3.1

/openapi.json

Backend API powered by Canonical Engineering Model (CEM) and Physical Design Model (PDM)

## projects

| | | |
|---|---|---|
| GET | /api /projects | List Projects |
| POST | /api /projects | Create Project |
| GET | /api /projects /{project_id} | Get Project |

## requirements

| | | |
|---|---|---|
| GET | /api /projects /{project_id} /requirements /questions | Get Questionnaire |
| POST | /api /projects /{project_id} /requirements /validate | Validate Requirements |

## design

| | | |
|---|---|---|
| POST | /api /projects /{project_id} /design /generate | Generate Design |
| POST | /api /projects /{project_id} /design /propagate-change | Propagate Change |

## schematic

GET /api /projects /{project_id} /schematic Get Schematic

## layout

GET /api /projects /{project_id} /layout Get Layout

## cad

GET /api /projects /{project_id} /cad Get Cad Geometry

GET /api /projects /{project_id} /cad /freecad-script
Get Freecad Script

## validation

GET /api /projects /{project_id} /validation Get Validation Report

## default

GET /health Health Check
